UV-C WATER TREATMENT

UV-C WATER TREATMENT

SANIPRO is proud to present a revolutionary

water treatment system ULTRA-VIOLETS RAYS STERILIZATION.

This new innovative system will ensure the prevention of legionella in the hot water as well as purification of micro-organisms which can be found in the water. This system eradicates bacteria, viruses, spore and legionella from the water without use of chemical products.

In few words, it means:

- Safe;
- Environmentally friendly;
- Cost Effective.

Applications

- Home
- Waste water treatment
- Public swimming pools
- Private swimming pools
- Spa
- Legionella prevention
- Aquariums
- Fish farm
- Salt water
- Hospitals
- **Pharmaceutical industry**
- **Food industry**
- **Cosmetic industry**
- Laboratory
- Snow guns
- Nuclear centrals
- Boat & desalinization plants.
